CORE SKILLS & TECHNOLOGY

Learning Design	Instructional Design · Technical Training · Curriculum Development · Needs Analysis · eLearning Development · LMS · Assessment Design · Multimedia Learning · Blended Learning
Learning Technology	Learning Analytics · AI-Enabled Learning · Articulate Storyline 360 · Articulate Rise 360 · Adobe Captivate · Canvas LMS
Technical	React · TypeScript · JavaScript · HTML · CSS · Python · SQL · PostgreSQL · FastAPI · APIs · AWS · Git/GitHub · Ant Design

EXPERIENCE

Independent Projects - Seattle, WA Sep 2026 - Present

Technical Learning Designer & Developer

- Design and develop interactive learning experiences that combine instructional design, learning technology, and custom development to address authentic learning needs.
- Build React and JavaScript learning applications using visual models, progressive scaffolding, formative feedback, gamification, and accessibility principles.

ExtraHop - Seattle, WA Feb 2026 - Jul 2026

Software Engineer Intern

- Built a React and TypeScript user-management interface with TanStack Query and Ant Design for external teams.
- Developed FastAPI endpoints and data workflows using PostgreSQL, SQLAlchemy, and DynamoDB; integrated AWS Cognito for authentication and user management.
- Created Istio access policies and audit logging while extending user-management capabilities across frontend, backend, database, and cloud services.

University of Maryland ARLIS & University of Pennsylvania - Remote Jan 2024 - Apr 2025

AI & Language Testing Specialist / LLM Project Contractor

- Analyzed and annotated multimodal English and Russian datasets for NLP and AI systems according to defined project specifications.
- Created and refined annotation guidelines and conducted quality review of annotations, AI outputs, and machine translations to improve consistency and reliability.
- Collaborated with cross-functional teams on data collection, organization, quality standards, and large-scale language projects.

Seattle Central College - Seattle, WA Jan 2013 - Dec 2018

Faculty | Instructional Designer | Course Coordinator

- Led curriculum development for programs serving 600+ multilingual learners, using needs assessments to align instruction with learner and program goals.
- Designed multimedia and eLearning content in an LMS to support blended and instructor-led learning.
- Designed and delivered technology training and professional-development workshops to help educators integrate learning technologies into instruction.

TECHNICAL TRAINING

Ada Developers Academy - Full-Stack Software Development Aug 2025 - Jul 2026

Python · JavaScript · SQL · React · Flask · APIs · Databases · Full-stack application development

EDUCATION

Full-Stack Software Development Program

Ada Developers Academy

M.Ed., Curriculum & Instruction

University of Washington

M.Ed., Teaching Foreign Languages and Cultures

Tomsk State Pedagogical University
