CORE SKILLS & TECHNOLOGY

Learning Design	Instructional Design · Technical Training · Curriculum Development · Needs Analysis · eLearning Development · LMS · Assessment Design · Multimedia Learning · Blended Learning
Learning Technology	Learning Analytics · AI-Enabled Learning · Articulate Storyline · Adobe Captivate · Canvas LMS
Technical	React · TypeScript · JavaScript · Python · SQL · FastAPI · APIs · Databases · AWS · Ant Design

EXPERIENCE

ExtraHop - Seattle, WA

Software Engineer Intern

Feb 2026 - Jul 2026

- Built a React and TypeScript user-management interface using TanStack Query and Ant Design for external teams.
- Developed FastAPI endpoints and worked with PostgreSQL, SQLAlchemy, and DynamoDB to support user-management workflows.
- Worked with AWS Cognito for authentication and user-management functionality.
- Created and updated Istio access policies and implemented audit logging for user-management activity.
- Extended internal user-management capabilities to external teams across frontend, backend, database, and cloud services.

University of Maryland ARLIS & University of Pennsylvania - Remote

AI & Language Testing Specialist / LLM Project Contractor

Jan 2024 - Apr 2025

- Analyzed and annotated multimodal English and Russian datasets for NLP and AI systems according to defined project specifications.
- Created and refined annotation guidelines to standardize complex tasks and improve consistency across project teams.
- Conducted quality review of annotations, AI outputs, and machine translations, providing feedback to improve accuracy and reliability.
- Collaborated with cross-functional teams on data collection, organization, quality standards, and large-scale language projects.

Seattle Central College - Seattle, WA

International Programs Faculty | Course Coordinator | Student Advisor

Jan 2013 - Dec 2018

- Led curriculum development for programs serving 600+ multilingual learners, aligning instructional content with learner needs and program goals.
- Conducted learner needs assessments and used findings to guide curriculum and instructional improvements.
- Designed and developed multimedia and eLearning content in an LMS to support blended and instructor-led learning.
- Designed and delivered technology training and professional-development workshops to help educators integrate learning technologies into instruction.

TECHNICAL TRAINING

Ada Developers Academy - Full-Stack Software Development

Python · JavaScript · SQL · React · Flask · APIs · Databases · Full-stack application development

Aug 2025 - Jul 2026

EDUCATION

Full-Stack Software Development Program
Ada Developers Academy

M.Ed., Curriculum & Instruction
University of Washington

M.Ed., Teaching Foreign Languages and Cultures
Tomsk State Pedagogical University
